

File Speed-Claim allows electronic filers (attorney and creditor) to **file** a proof of claim without having to prepare and attach a separate PDF file for the B10-Proof of Claim Form. After a case and creditor name are selected, a fillable B-10 form appears for the e-filer to fill in on-line. Case, creditor name, and e-filer name are already filled in on the form. After the filer fills in the appropriate information and clicks Next, a Notice of Electronic Filing appears indicating the claim is filed. (PDF **attachments for supporting documentation** can still be attached).
